The skill of cooks and kitchen staff is equally as important as the quality of service. Unfortunately traditional tipping has created great disparities in the earnings between service staff and kitchen staff. As an alternative to raising prices, which leads to higher tips, we impliment a 2.9% hospitality provision for non-tipped employees working behind the scenes to provide our kitchen professionals a living wage. If you would like this charge removed, please just ask. We thank you for allowing us to share your generosity with our entire staff.
